

How to Log in at first Spirit

Login > <https://kulzer.e-spirit.hosting/>

Step 1 choose your language you want to use first spirit.

Step 2 Download the First Spirit Launcher and open it, do the installation.

Step 3 click on Site Architect

- Click on "Site Architect". The download of the "config.fslnch" file will then start automatically (top right in the browser).

- Double click on the "config.fslnch" file > First Spirit editing area opens.

Step 1 and 2 are only necessary at the very first registration!

Choose your country folder

The screenshot displays a content management system (CMS) interface. On the left, a tree view under 'Page content' shows a list of folders for various countries and regions, including International (EN, INT2), Australia (EN_AU), Benelux (FR_B, NL_B), Brazil (PT), China (ZH), France (FR), Germany (DE), Greece (GR), Italy (IT), Japan (JP), Kulzer Technik (DE_KT, EN_KT), Mexico (ES_MX), North America (EN_US), Poland (PL), Spain (ES), Ukraine (EN_LEE), and technical folders like 'xx - copy master - xxx' and 'xx - Technical - xxx'. A yellow highlight is visible on the 'International (EN, INT2)' folder.

The main workspace shows a preview of the 'Homepage' page. The page header includes the 'FirstSpirit' logo and 'Production Kulzer GmbH'. The page content features a large image of a seedling growing in soil, with a text overlay that reads: 'Let's grow together - Kulzer teeth are the formula for your success.' Below the image, the text states: 'KULZER SERVES DENTAL PROFESSIONALS IN MANY WAYS' and 'Choose your area of interest:'. The CMS interface also shows a metadata editor with fields for 'PAGETITLE' (Kulzer - Welcome to Kulzer), 'DESCRIPTION' (Kulzer is one of the world's leading dental companies and part of the Mitsui Chemicals Group), and 'KEYWORDS, SEPARATED BY COMMA'. At the bottom, there are settings for 'XML Sitemap info', including 'SITEMAP - CHANGE FREQUENCY' (monthly) and 'SITEMAP - PRIORITY' (0.5).
