

CARA PRINT CLEAN PRO**AUTOMATED, SAFE,
NO-MESS CLEANING****EXPERIENCE
THE 360° VIEW****KULZER.COM/
CLEANPRO-360**

cara Print Clean pro is an automated 3DP cleaning system that agitates isopropanol in a contained volume to clean excess, uncured resin from 3D-printed parts. cara Print Clean pro is our answer to the important step between printing and curing dental appliances.

**KULZER**
MITSUI CHEMICALS GROUP

One touch operation shouldn't end at the printing phase: automate your post processing with thorough, no mess cleaning at the push of a button while protecting yourself from too much exposure to isopropanol. The new pro version has an even larger chamber to work seamlessly with the new cara Print 4.0 pro 3D printer (and cara print 4.0).
